

Subject line: Article about student health and safety

Dear editor,

At a time when fraternities and sororities face media scrutiny, we want to tell you about something positive happening at Theta Chi Fraternity. Theta Chi has launched a pioneering national movement that is improving the health, safety, and overall well-being of its members. It is making a positive difference in our lives.

Attached is a press release delivered by our National Fraternity. In addition to this national story, we want to tell you about the positive impact being made at our local Theta Chi chapter.

Please consider writing an article that elevates the conversation about student health and safety. And, that highlights how a local fraternity chapter is leading the way.

Sincerely,

[Your name]

Vice President of Health and Safety

Theta Chi Fraternity
